## 2. Introduction

### 2.1 Introduction to V-MusT.net

Virtual Museums (VM) are a new model of communication that aims at creating a personalized, immersive, interactive way to enhance our understanding of the world around us. V-MUST.NET network of excellence, financed by ICT FP7 (G.A. 270404) is exploring this area, facing challenges and issues and, finally, shaping the domain. The goal is to survey and analyse the actual state of the art and propose a vision for the future virtual museums.

### 2.2 V-MusT.net Goals in Work Package 6

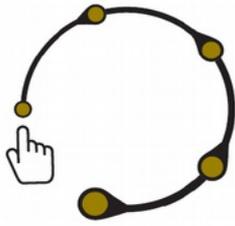

WP6 has the ultimate aim of greatly improving the training of experts and professionals who are currently active in the field of virtual museum activities, but also, and crucially, prepares through extensive programmes of training those younger professionals who will shape and determine such work in the future. In order to realise these objectives, the WP harnesses the experience and skills of partners who have already been prominently active and successful in educational activities relevant to the V-MusT.net programme, and complements their work by close collaboration with other partners who are positioned to provide high quality vital training and support for such activities in the future. This WP uses a combination of formal, informal, and non-formal teaching and learning methods. The WP6 objectives are:

- to create a high quality and efficient training system in the field of VMs;
- to make lifelong learning and mobility in virtual museums a reality;
- to create the optimal conditions in Europe at the higher education level to support and improve the training of future European researchers and experts in VM;
- to improve the range and richness of employment opportunities in the field of VMs.

### 2.3 Goals of Deliverable 6.4

This deliverable represents the first iteration of an extensive activity devoted to the integration of Virtual Heritage and Virtual Museums domains in the academic curriculum.

Grant Agreement 270404	<b>CYI</b>	<b>PUBLIC</b>	4 / 46

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

High quality higher education is one of the primary foundations for Europe's success. For this reason one of the main objectives of WP6 tasks (Task 6.3: **Educational Programme**) is to propose an European **Higher Education Programme** (masters, graduate and post-graduate) in Virtual Museums and Virtual Heritage. The creation of the first such academic programme in the world devoted specifically to this subject would put Europe in a position of advantage over other countries and ensure not only the present but also in the future the existence of a sufficient number of European experts in this field. To achieve this objective an internal **Interest Group (HEPIG: Higher Education Programme Interest Group)** and Network of Higher Educational Centres will be created (task 6.3.1).

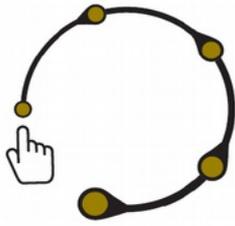

This Group will have the mission of creating a **Higher Education Strategy document** (task 6.3.2), defining the best way to create a European High Education System in VMs at all levels in the Higher Education Sector. This will include:

- the identification of appropriate educational objectives, audiences and scope;
- describe the programmes and teaching units;
- prepare plans for teaching learning contents;
- define criteria and assessment instruments;
- programming the temporal organization of educational activities
- establish methods for evaluating the quality of the courses.

Through the V-MOVE (the mobility programme) and V-MUSTer SCHOOLS (the educational programme), it will be explored feasible modes of implementation of such programmes amongst the academic and research partners of the project:

1. Through the Virtual Heritage Schools programs, it will be intended as international collaborations between the partners, towards an eventual European degree in VM studies.
2. Through the V-MOVE programme to promote mobility at European level, and, given its innovative aspect, attracting young researchers to Europe.
3. Through the newly established CenterNet Europe.

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

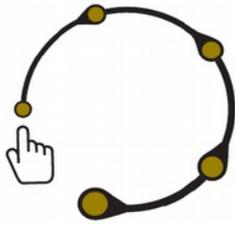

## 2.4 Interest Group and Network of Higher Educational Centres

The Higher Education Pedagogical Interest Group (HEPIG), which will be an internal network set up by King's, comprises those members of the consortium with interest in the pedagogy and teaching of subjects that fall under the aegis of Virtual Museums. A call to participate in HEPIG was made during the 3rd year of the project (M28) to the members of the consortium.

### Interest Group Members

- Allard Pierson Museum (Archaeological Museum of the University of Amsterdam) (Nederland)
- APRE: Agency for the Promotion of European Research (Italy)
- CULTNAT Centre for Documentation of Cultural and Natural Heritage (Egypt)
- Foundation of the Hellenic World (Greece)
- Fraunhofer IGD (Germany)
- Mercati di Traiano - Museo dei Fori Imperiali (Italy)
- Noho (Ireland)
- Virtualware (Sapin)
- Visual Dimension (Belgium)
- CNR IBAM (Italy)
- Network of Higher Educational Centres (HEPIG)
- CINECA Interuniversity Consortium (Italy)
- CNR (National Research Council): Includes CNR ITABC, CNR ISTI, and CNR ITD (Italy)
- Archeovision, CNRS, Bordeaux, (France)
- Elektrotehnicki fakultet Sarajevo (Bosnia-Herzegovina)
- King's College London, Department of Digital Humanities (U.K.)
- Lund University (Sweden)
- Sociedad Española de Arqueología Virtual (SEAV) (Spain)
- The Cyprus Institute (Cyprus)
- University of Brighton (U.K.)

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

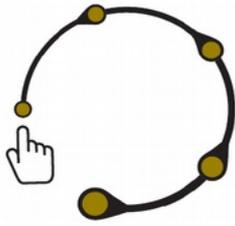

- University of Granada, Virtual Reality Lab (Spain)
- University of Udine, Human-Computer Interaction Lab (Italy)
- TU Delft (Technical University Delft) (Nederland)
- University of Padova, Dept. of Archaeology (Italy)
- Aalto University, Media Lab, Helsinki (Finland)
- Vilnius University, Faculty of Communication (Lithuania)
- Università luav di Venezia (Italy)
- Universidade de Coruña, Videalab (Spain)
- University of Barcelona - Didpatri Group (Spain)
- Instituto Tecnológico de Monterrey CEM (ITESM) (México)

It is the role of this group to react to the changes in educational marketplace and inform the project on trends within the educational world as well as promoting the projects work within the educational community.

It will be the role of the HEPIG to promote the concept of VM within the Museum/heritage community as part of an educational outreach policy to counteract resistance in those communities. It has often been argued that VM will detract from the physical visitor footfall to institutions without fully understanding the benefits of employing virtual technologies within (and across) physical sites.

Initially all European Higher Educational institutions, museums, cultural heritage institutions and European world heritage organisations will be contacted to alert them of the work that VMUST is undertaking. Further they will be asked to participate in a consultation process, the object of which is to identify the skills required (or desired) by the "end user" institutions, i.e. the museum and the "service provider" i.e. the higher education institutions. Through the dialogue afforded by this the deficits between skills and needs can be identified and closed. It is anticipated that this will require a degree of political lobbying on a local, national, European and perhaps international level to affect change.

EXPERIENCE  
THE FUTURE  
OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

HEPIG will hold two annual meeting in the form of a symposia/exhibition where not only can the educational requirement be discussed, examples of best practice be shown, and invaluable networking between professionals occur, but also where institutions looking to recruit both staff, students and professionals can have the opportunity to source human resources. The first symposium is planned at M32.

#### 2.4.1 CenterNet Europe

HEPIG will be linked with the newly established CenterNet Europe, which covers all Digital Humanities Centres in Europe. It will be used as a basis for establishing HEPIG. However, CenterNET Europe has only recently been established.

#### 2.4.2 Work plan 2013-2015

The goal of HEPIG is to contribute to the development of new intellectual skills related to virtual museums. To reach this goal the plan is the following:

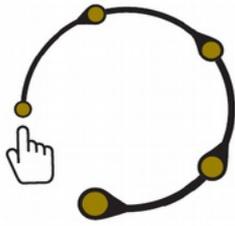

- Analysis of the state of the art in the Academy: research into a new curricula and centres, e.g. <http://hoc.elet.polimi.it/hoc/>; <http://www.ischool.utoronto.ca/>
- Proposal of integration with V-MOVE and V-MUSTer School programme
- Creation of the Higher Education Group after internal call
- Integration with V-MOVE programme
- Organization of HEPIG symposium
- Definition of the Higher Education Strategy Document (1st draft) (Ch. 4)
- Integration with V-MUSTer SCHOOL programme
- Organization of the second HEPIG symposium
- Final version of the Higher Education Strategy Document

#### 2.4.3 Hepig V-MUST taskforce

After an internal call the following partners have been enrolled in the HEPIG taskforce:

- Sorin Hermon > Cyprus Institute

Grant Agreement 270404	<b>CYI</b>	<b>PUBLIC</b>	8 / 46

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

- Drew Baker > King's College
- Victor Lopez Menchero > SEAV
- Jaap Kamps > University of Amsterdam
- Ivana Cerato > CNR ITABC
- Patrick Reuter > Univ. of Bordeaux

The goal of this task force will be to work in Year 3 and Year 4 of V-MUST.NET project and update this document to a final version and publication at the end of the project. The group will work as follow:

1. They will specify key words useful for an academic survey (such as "Museum Studies", "Virtual Museums", "Digital Heritage" etc...). This task will provide input for the following work
2. They will carry out a survey on existing masters/courses/classes on topics related to the suggested terms. A search will be done in Humanities/Architecture/Computer Graphics or in general ICT and Design/Communication, Museum Studies. A first version of this survey is presented here in this document. A final result will be presented in the final version of the document, published and disseminated also on line.
3. They will summarize the state of art in the final version of the document. They will also analyse, in parallel, what is required by the "market" outside. in order to develop a virtual museum (competences, skills, professional qualities etc.,)
4. They will compare "market" needs and academic offers
5. They will finally organise results and create a proposal for Integration of academic curricula or/and creation of new Masters/Classes on these topics.

		<i>Date:</i> <b>31-01-20145</b>

## 3. Survey on academic programmes

This chapter includes result of the survey carried out by the HEPIG task force. More than 72 courses (MA, MSc, Postgraduate Diploma, Certificate, Courses) have been analysed.

The information collected regards:

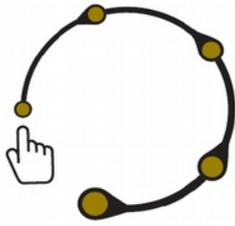

**Name of course | Type | University | City | Country | web | tag**

The list is reported in alphabetical order in accordance with the Country at the end of this document (Annex 1). Other links are available through this public link: [https://docs.google.com/document/d/1Tif1BKIEuWW\\_cN-ljNk26hcfHQO1CMV1PHG8KI0ZL1c/edit](https://docs.google.com/document/d/1Tif1BKIEuWW_cN-ljNk26hcfHQO1CMV1PHG8KI0ZL1c/edit)

We can see that the direction is toward the organisation of Courses.

- 1) There are almost no courses analysed which takes into consideration "**virtual museums**" as main core topic. Nevertheless there is a course on history and archaeology, entitled "Special Topics in Public History: Digital History & Virtual Museums" (<http://studiegids.uva.nl/web/uva/sgs/nl/c/740333.html>) which takes more of an online themed museum collection approach, organised by the University of Amsterdam. There are postgraduate summer schools on this topic, such as those organised by V-MUST.NET (Virtual Heritage Schools). There are also a few classes about virtual reconstructions organised within specific courses (such as that on "Digital Heritage "by University of Amsterdam: <http://studiegids.uva.nl/web/uva/sgs/nl/c/13105.html> at the Graduate School of Humanities)
- 2) **Digital museum** is a subject mainly treated as part of museum studies, although there are more general 'digital humanities' and 'digital heritage' programs that have considerable attention to digital museum practices, and in particular to research on cultural heritage data.

Grant Agreement 270404	<b>CYI</b>	<b>PUBLIC</b>	10 / 46
------------------------	------------	---------------	---------

v-must

# EXPERIENCE THE FUTURE OF THE PAST

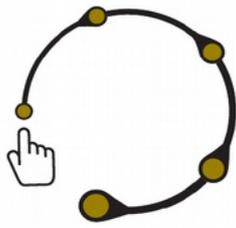

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

- 3) Topics on **design, human computer interaction, interaction, games, gamification, communication, 3d modelling, video compositing, web, mobile etc.** are not treated typically in museum studies
- 4) Topics related to **exhibition and design** are mostly organised by art departments.
- 5) **Virtual reality, artificial life, virtual worlds, simulation, computer graphics and games** are treated by Masters or Courses organised by ICT departments.
- 6) **Gaming and multimedia** are often treated in the context of computer science (such in the case of **Utrecht Master** where no mention to communication, storytelling or other issues more connected to museums are treated)
- 7) **Digital storytelling** is a topic generally held by department of telecommunication and school of communication, sometimes humanities, but it is more focused on video and audio and broadcasting, not related with interactivity or museum focused
- 8) **Interaction design, human computer interaction, interface design** are the main focus of several masters organised by specific Design departments In the art and communication domains. Although there are several art and humanities courses, a certain mix with technical classes is assumed. Many universities in the north of Europe have Masters on these topics Some of these masters includes museum as a reference domain, such as in Copenhagen where it is organised a course on "**Interactivity in Museums**" (<http://ciid.dk/external-teaching/interactivity-in-museums-kolding/> )

A part this general view on the academic offer, we have noted that there are some universities that are trying to create cross-connections among disciplines, such as the case of **Information Science + Information Studies (ISIS) at Duke University** (that includes: The Digital Landscape: New technologies to visualize ancient landscapes , Technology & Innovation Policy Lab, Visualizing Venice, Live Processing and Live Art: Performance and Technology , Modelling and Simulation, The Lives of Things, Making Data Matter).

Also Media Lab at MIT is promoting interdisciplinary research (<http://www.media.mit.edu/about/academics/class-schedule>) with its Program in **Media Arts and**

		<i>Date:</i> <b>31-01-20145</b>

**Sciences** (see Annex), that creates a mix of scientific and humanities topics, cognitive sciences, although there is no mention to users and museums.

On the other hand, digital museums and virtual museums topics, including interaction and storytelling seem to be more a frontier and research area than an academic established proposal. In fact it is held by post graduate summer schools, such as those organised by V-MUST in Virtual Heritage (<http://www.v-must.net/schools>).

## 4. Higher Education Strategy Document

The Higher Education Strategy document aims at defining the best way to create an European High Education System in Virtual Museums and related topics, at all levels in the Higher Education Sector, including:

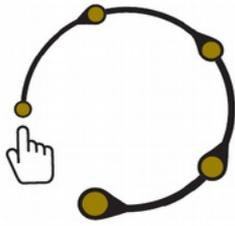

- the identification of appropriate educational objectives
- audiences
- scope
- suggested programmes
- teaching units
- plans for teaching learning contents
- criteria and assessment instruments
- suggested methods for evaluating the quality of the courses

A further step is to explore the feasible modes of implementation of such programmes amongst the academic and research partners of the project, as well as proposing teaching programs as international collaborations between the partners, towards an eventual European degree in Virtual Museum studies.

As an output, it aspires also to draw the needs of the Virtual Museum community stakeholders and realise these as a series of course modules descriptions appropriate to the specific requirements and specialisations demanded by the market place. As such these will form the basis of a potential pan-European recognised qualification in VM studies. However it is considered that while this may be taken up by a few institutions, a much larger number will pick up the teaching of specific modules relevant to their specific areas of expertise.

These modules will also be connected, wherever appropriate, to the summer schools and advanced autumn schools and VM Academy, maximising their impact on the European education policy.

# EXPERIENCE THE FUTURE OF THE PAST

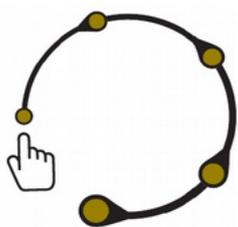

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

At M35 will be published the second release of this document that will contain the publication of a "Higher Education Sector Strategy Document", which will be the responsibility of King's College London, and which will incorporate the outcomes of this process of analysis, discussion, and the sharing of experiences.

The Higher Education Strategy document will propose a comprehensive curriculum for an ambitious pan-European postgraduate degree programme exploring the following:

- Justification of a Postgraduate Programme
- Educational Objectives and Competence
- Student Competences and profiles
- Programme Teaching Structure
- Evaluation system
- Grading Systems
- Quality Assurance

The Higher Education Strategy document can be found in Deliverable 6.2.

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

## 6.2 Detailed program on selected courses

### 6.2.1 Museum Studies, University of Leicester, UK

**Link:** <http://www2.le.ac.uk/uol/departments/museumstudies/>

#### Programme Structure

##### Core module 1 - Museums, Societies and Cultural Change

The museum's relationship to society is complex, multidimensional and shifting. Increasingly subject to the influences and challenges of rapidly changing social, political and economic environments, museums - traditionally been characterised as static and fiercely resistant to change - are responding by embracing new roles, forging new relationships, charting new territory and reconfiguring themselves around a full range of cultural and heritage resources.

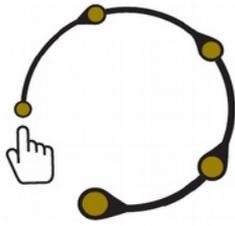

##### Core module 2 - Strategic Resource Development

Museums are made up of a number of resources. These include people, infrastructures and collections and associated information. This module explores how these resources are acquired – and how and why they are maintained and developed. This module will help you to:

- Define museum resources;
- Identify how these resources are acquired;
- Demonstrate why these should be developed;
- Illustrate how resources are utilised and developed;
- Relate these resources to changing contexts and audience development;
- Apply concepts of strategic resource development to different museum contexts;
- Evaluate existing examples of strategic resource development;
- Plan for strategic resource development in museums.

##### Core module 3 - Communication, Media and Museums

Grant Agreement 270404	CYI	PUBLIC	26 / 46

v-must

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

Making the rich and diverse resources of the museum accessible to individuals and communities in a changing society, involves a wide range of media. Working from theories of communication and learning, this module looks at a variety of key media tools available to museums, and how these can be deployed through project management processes in different museum contexts.

This module will help you to:

- Understand the communicating museum;
- Engage with theories of communication and learning;
- Identify the different media tools (including: objECTS; the written word; space and design; and, interactivity);
- Develop appropriate project management tools for using these media;
- Formulate informed design briefs;
- Design evaluation methodologies;
- Understand the issues and practice relating to loans and packing.

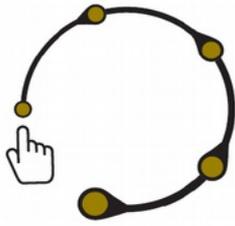

## Option Module

- Archaeology for the Museum
- Curating the Art Museum
- Digital Media and Curatorship
- Museum & Gallery Communication and Education
- Museum & Gallery Marketing
- Museums and Histories
- Natural Science Curation
- World Arts/Museum Ethnography

## Museum/Gallery Experience

During the summer term, all students **undertake an eight-week Museum/Gallery Experience placement.** One of the strengths of the programme, this placement enables students to test and develop the content of the taught programme in the workplace environment.

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

Each year over one hundred museums on the LUMeN network (Leicester University Museum Network) send in projects from which the students can choose.

### **Masters Dissertation**

In order to obtain an MA or MSc, students undertake supervised research into a topic and complete a dissertation, maximum 15,000 words. Those that wish to obtain a Postgraduate Diploma do not complete the dissertation.

A Master of Science (MSc) can be awarded in preference to a Master of Arts (MA) where the dissertation concerns a science collection or museum, or where the nature of the investigation can be termed 'scientific'

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

examines new models of education, exhibition, and business strategies while exploring the role of the museum as an agent of social change.

We welcome students from around the world interested in all types of museums including history, technology, science, art, special topic or themed museums, historic sites, national parks and zoos as well as those interested in exhibitions for corporations, government agencies and private organizations.

The majority of the program is available **online**, allowing us to offer the expertise of highly regarded professors and museum professionals from around the world. You'll also have access to innovative virtual field trips and global resources from a wide array of museums brought together in new and exciting ways. Our international student body provides diverse perspectives and experiences in a dynamic online learning environment.

## Onsite Seminar

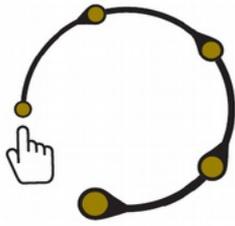

As part of the program, you'll participate in a two-week, intensive museum study seminar in Washington, D.C., or in another location organized by the museum studies program. The seminar includes practicum opportunities in a variety of museum settings; conversations with local museum professionals; interaction with museum visitors; and class sessions to integrate the daily experiences. You'll have a chance to use what you've learned in your prior courses, network with fellow students and museum experts, and explore the latest in museum practice, including exhibition design and development, public programming, collections management, conservation, and uses of technology in the museum.

## 6.2.3 Certificate Program in Digital Curation, Johns Hopkins, Washington, USA

**Link:** <http://advanced.jhu.edu/academics/certificate-programs/digital-curation-certificate>

It is possible to get a Certificate in Digital Curation, offered through the Museum Studies program of the same Johns Hopkins University. **Course Descriptions** (offered in both the MA in Museum Studies and the Digital Curation Certificate). In **bold** topics most related to virtual museum domain:

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

MSMS-GA 1500- Introduction to the social and political history, and theory of museums. This course focuses on the formation of a variety of museums from a diversity of disciplinary perspectives and analyses questions surrounding governance, nationalism, identity, and community. The requirements include frequent visits to museums, short writing assignments, and a final research paper.

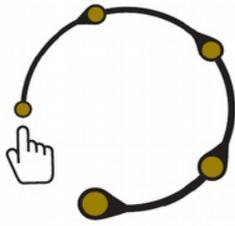

**Museum Collections and Exhibitions-** This course covers museum collections management and the organization of exhibitions. There are arranged visits to the storage collections of the American Museum of Natural History and the Guggenheim Museum, among others. Guest speakers are curators, a registrar and a conservator. Assignments consist of individual reports and team projects.

**Museum Management** - Overview of management, finance, and administration. Topics covered include organizational structure and the roles and relationships of museum departments; operational issues, including security and disaster planning; museum accounting and finance, including operating and capital expense budgeting; leadership and strategic planning; and legal and ethical issues facing museums.

**Internship** - Students nearing completion of their master's in museum studies, or their certificate and their academic degree, must apply in writing to the program internship coordinator. Placements are made on an individual basis and are project oriented. For one or more semesters, a minimum of 300 hours is spent as an intern at a museum or other suitable institution. A daily log, diary, and progress report are required. Students must earn a grade of B or better to receive the M.A. or advanced certificate.

**Research Seminar** - Students conduct research combining their academic and professional interests, using appropriate methodology. They formulate a topic, prepare an annotated bibliography, and write the qualifying paper based on their research. M.A. students also develop their thesis proposal.

# EXPERIENCE THE FUTURE OF THE PAST

6	<b>DELIVERABLE REPORT</b>	<i>Doc. Identifier:</i> <b>D. 6.5c</b>
		<i>Date:</i> <b>31-01-20145</b>

**Topics in Museum Studies** - Current issues in the museum profession and the interdisciplinary study of museums. Outside museum scholars, specialists, and university faculty offer in-depth examination of topics. Among the topics offered in recent years have been, Anthropology in and of Museums, Exhibition History, Creating a Memorial Museum, Curating as Collaboration, Museums and Political Conflict, Museums and the Law, Challenges for Art Museum Curators Today, and The Museum Life of Contemporary Art. Practicums with hands-on components also are offered periodically under this course number. (Refer to the current course schedule for particular seminars offered in each academic year.)

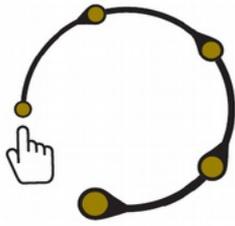

**Research in Museum Studies** - Independent research on a topic determined in consultation with the program director.

**Development, Fund-Raising, and Grantsmanship** - Overview of organizational development principles as they relate to the fund- raising and grantsmanship process. Topics include sources of funding, current trends, and fund-raising techniques; earned income; public relations; volunteers; and membership. Includes a practicum in proposal writing and work experience with an arts organization in program development and fund-raising.

**Museum Conservation and Contemporary Culture** - This seminar introduces students to the conservation of cultural heritage and the role it plays in shaping cultural memory. It covers preservation values as they developed in western culture, and addresses concerns of living artists, indigenous groups and others with claims to the disposition and care of cultural materials.

**Historic Sites, Cultural Landscapes, and the Politics of Preservation** - Examines the cultural politics, social trends and economic circumstances that shape the preservation and interpretation of historic spaces. Through readings, site visits, and archival research, students investigate a wide variety of historic sites, exploring the social and political contexts that dictated sites' original use and influence subsequent reuse and interpretation.

**Museum Education** - This seminar provides an overview of the field of museum education in the context of the institution's relationship with constituent communities and with application to a broad range of audiences. Among the topics considered are teaching from objects, learning strategies, working with docents and volunteers, program planning, and the educational use of interactive technologies.

**Museums and Interactive Technologies** - This course presents a survey and analysis of museum use of interactive technologies. Among the topics discussed in detail are strategies and tools for collections management, exhibitions, educational resources and programs, Web site design, digitization projects, and legal issues arising from the use of these technologies. Each student develops an interactive project in an area of special interest.

**Exhibition Planning and Design** - This course focuses on the planning, development, and design of exhibitions, permanent, temporary, and traveling. It is a participatory class where students learn basic exhibition design techniques, including spatial layouts and the use of graphics, audio-visual aids, lighting, colours, materials, and fabrication methods. There are visits to designers to discuss their work and to museums to analyse exhibition design techniques. Individual student projects provide hands-on experience.

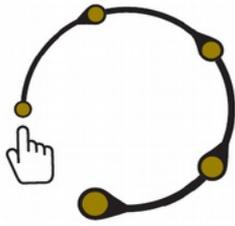

**Museums and Contemporary Art** - This course investigates historical, theoretical, and practical aspects of the collecting and exhibiting of contemporary art in museums. Topics include curatorial strategies for exhibition and collection development, international biennials, museums and the art market, conservation of new art forms, artworks that take the museum as subject, and conflicts of interest.
